

Press Release

Mayors presented with Seven Thousand Pound donation at LondonWaste Annual Mayoral Event

LondonWaste, one of London's leading waste management companies, was delighted to present each newly elected Mayor with a donation for One Thousand Pounds at our Annual Mayoral Event on the 20th June 2008. The event was hosted by LondonWaste's Managing Director David Sargent and Chairman Councillor Brian Haley, with Mayors attending from seven North London boroughs.⁽¹⁾

Councillor Brian Haley Chairman of LondonWaste said *"I am proud to kick start the Mayors chosen charities with these donations and it is a pleasure to be hosting this Mayoral Event"*.

Annual Mayoral Event 2008

Now in its third year the Annual Mayoral Event highlighted the Mayors' dedication and contribution to their chosen charities. LondonWaste also had the opportunity to introduce Mayors to the EcoPark, demonstrating the benefits the organisation has on the environment, and how waste is successfully recycled.

The Mayors received a guided tour of the Compost Centre and Energy Centre, and saw first hand effective recycling of organic plus residual waste, received on site. The Compost Centre is a valuable resource in North London as it diverts 30,000 tonnes of green waste and kitchen scraps from landfill and transforms it into high quality compost. The Energy Centre uses a combustion process to generate electricity from approximately half a million tonnes of waste remaining after composting and recycling.

LondonWaste, owner of the EcoPark, have always encouraged weekly tours. As a waste management company tours are an important part of our communication strategy.

The event concluded with lunch followed by the Mayors giving a speech, before accepting their donations from Managing Director David Sargent and Councillor Brian Haley.

-End-
